## E-Status<sup>SM</sup> and E-Traker<sup>SM</sup> Information and enrollment form

E-Status<sup>SM</sup> is a service that e-mails reports of arming, disarming, alarm signals and trouble signals to the subscriber within minutes of the event. Each report includes the time and date of the event and an event description. This is useful to homeowners and business owners wanting updates on the status of their security system as well as knowing if their system is armed or disarmed and by whom.

E-Traker<sup>SM</sup> is a service that e-mails a report of arming and disarming events once per week to the subscriber. This is useful to homeowners and business owners in knowing on a weekly basis in one concise report who has disarmed and armed the security system and when.

We also offer a combined service that includes both E-Status<sup>SM</sup> and E-Traker<sup>SM</sup>, giving the subscriber a neat weekly report of arming and disarming events, as well as small updated reports within minutes of the event.

We do not guarantee that either of these services will deliver reports via e-mail every time. There will be times when the report(s) will be delayed or not appear at all. This could be due to many factors including server malfunction, links being broken within the internet, phone service outages and other electronic malfunctions. We have beta tested the service since June 2004 and believe it to be a valuable tool for our subscribers.

By filling out this form and signing below, you agree that we will provide the service(s) you select under the terms and conditions of the "Installation, Monitoring, Testing\Inspection Agreement" that has been executed between our company and yourself or your company. This includes the limitation of warranty liability and exclusive remedy included therein. Except, this/these additional service(s) shall be billed on a quarterly or annual basis and you may ask for a refund of any prepaid amounts (for unused services) should you decide that this service does not meet your needs and cancel this additional service at any time you wish.

*Please fill in the information below to add one or both of these services to your account:*

--	--

Name (on the monitoring account)

Account Number (if you know it, otherwise just leave this blank)

--

Address of the property we are monitoring in SUMMIT COUNTY

*Please check which service(s) you would like to add to your account:*

E-Status<sup>SM</sup> \$ 7.95 per month billed quarterly or \$ 87.45 per year.
